TECHNICAL SPECIFICATIONS

RETHINK INNOVATION

[illegible]	
Printing technology	• [illegible] digital inkjet technology • Drop on Demand (DoD) inkjet application • Pressureless modification, single-pass printing • Flexible and scalable architecture
Variable coding Substrates	[illegible]
Production speed [1]	[illegible]
Applications	[illegible]
Dimensions/weight/power	[illegible]
Variable width area	[illegible]
Substrate thickness	[illegible]
Substrate compatibility [2]	[illegible]
UV coding and capacity	[illegible]
Substrate color/texture	[illegible]
Pallet number	[illegible]
Paper path	• [illegible] • [illegible] • [illegible] • [illegible]
Active Shutter Environment	[illegible]

[illegible]	
PCB 1	[illegible]
Other options	[illegible]
Maintenance and consumables support	[illegible]
Dimensions and weight (Pallet size: 80 [illegible])	[illegible]
Electrical requirements	[illegible]
Operating environment	[illegible]

[illegible]

[1] [illegible]
[2] [illegible]
