

Anonymous Call Rejection

Overview

Anonymous Call Rejection allows users to reject all calls from anonymous sources. By activating the service, callers without available caller identification are informed that the user is not accepting calls at that time. The user's phone does not ring, and the user sees or hears no indication of the attempted call. This service does not apply to calls from within the group.

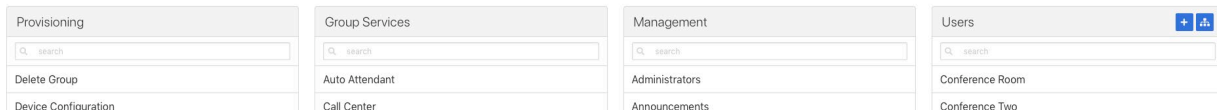

Feature Prerequisites

- Premium User Seat

Feature Setup

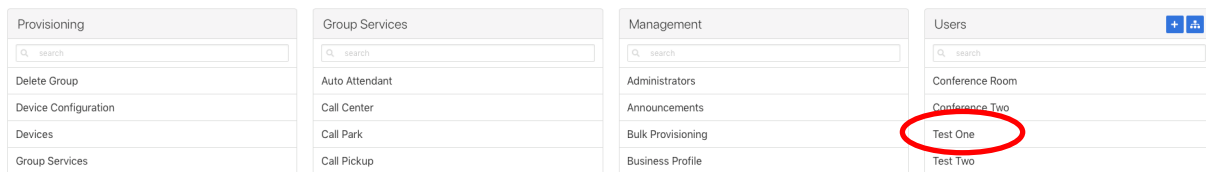

1. Go to the group admin dashboard.

Dashboard / Service Providers / AllCoveredSP / Groups / demo-lab-dev

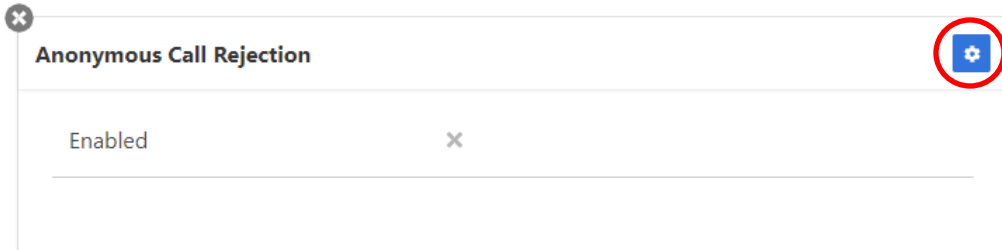

2. Select the user or service on which you want to set up Anonymous Call Rejection.

Dashboard / Service Providers / AllCoveredSP / Groups / demo-lab-dev

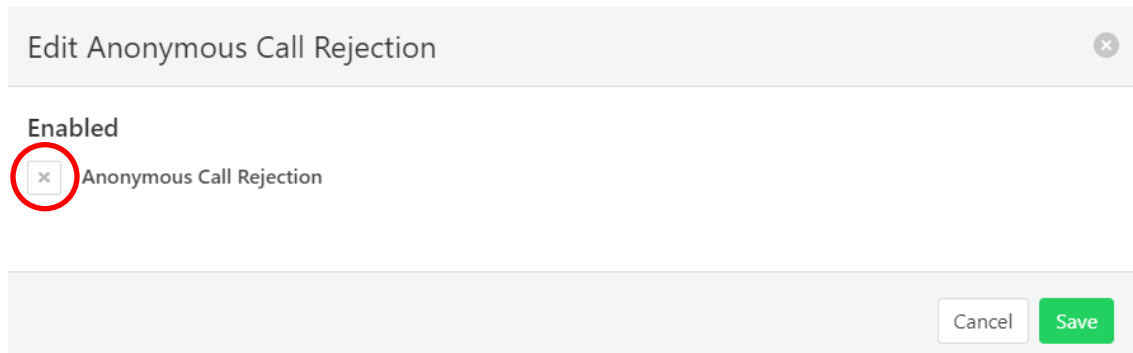

3. Click **Service Settings** in the left column navigation.
4. Select **Anonymous Call Rejection** from the services list.

5. Click the gear icon in the Anonymous Call Rejection heading to configure the service.

6. Select *Anonymous Call Rejection*.

7. Click **Save** to retain changes.
