

KONICA MINOLTA

TECHNOLOGY

PRINTING THAT'S AS MOBILE AS YOUR BUSINESS.

Print securely on the go. From anywhere. On any mobile device.

Mobile devices have unleashed our workforce, transforming both our personal and professional lives. Workers on the go demand a workflow that's as flexible as they are, able to integrate with any smartphone and tablet, whether they're in or out of the office. Konica Minolta's easy-to-use Lantronix® xPrintServer® Office enables direct printing from any iOS or Android device without using proprietary apps. Simply plug in the xPrintServer to your network and within seconds, it automatically discovers and provisions your printers — without manual setup. Your on-the-go employees can access and print documents from their mobile devices easily, quickly and securely.

LANTRONIX®
CONNECT SMART. DO MORE.™

MOBILE PRINTING MADE EASY.

**Transform how your organization manages printing.
And support how mobile workers get their jobs done.**

Today, using a mobile device on the job is increasingly commonplace. But printing on the go poses challenges. More and more people use their own devices for work. Organizations need to support multiple device platforms while securing document access and control. Konica Minolta can help you meet the growing print needs of mobile workers with Lantronix xPrintServer Office. It allows mobile workers to access and print from any mobile device, eliminating the need for complicated apps or redundant processes, like emailing items to print. It will work with your existing printers, saving you from costly new printer purchases.

The Lantronix xPrintServer Office provides professional-grade features and functionality, such as:

- Print directly from iOS devices — iPad, iPhone, iPod
- Google Cloud Print™ support for Android and Chromebook
- Auto discovery and printer setup
- Support for unlimited number of iOS and Android mobile devices
- Remote authentication/active directory
- Configuration save/restore
- Proxy server support
- Printer-user management/advanced user configuration

SIMPLY PLUG IT IN FOR **UNLIMITED PRODUCTIVITY.**

ONE-STEP INSTALLATION

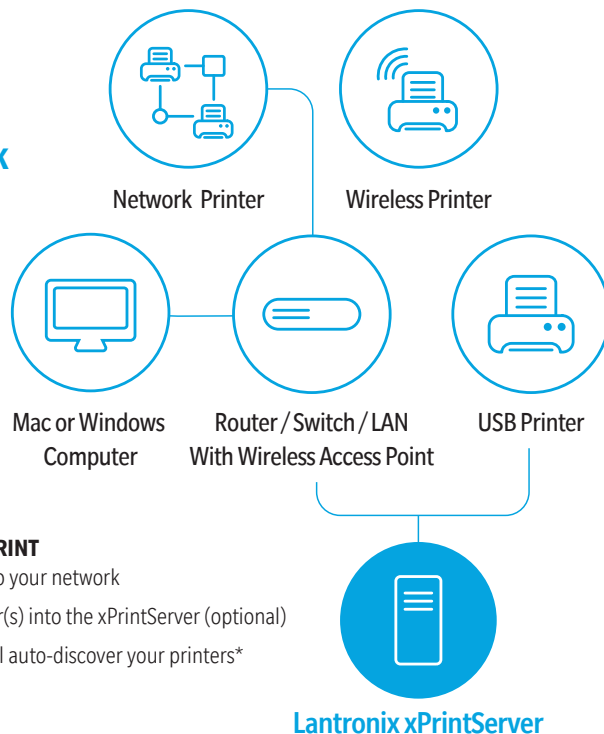

The easy-to-use Lantronix xPrintServer is a game changer for your business. All you have to do is open the box and plug in your xPrintServer anywhere on your network (LAN) via an Ethernet cable. Within seconds, the xPrintServer will auto-discover the printers on your network for iOS, Chrome OS and Android device printing. Then select the native print menu on your mobile device to start printing (for Chrome OS and Android, link xPrintServer to your Google account to begin printing).

MAXIMIZES PRODUCTIVITY

One xPrintServer unit supports multiple users and multiple printers simultaneously. With the xPrintServer from Lantronix, your mobile workforce will be printing in minutes. Productivity is maximized throughout your Konica Minolta bizhub fleet.

OFFICE NETWORK

OPEN, PLUG IN AND PRINT

1. Plug xPrintServer into your network
2. Plug your USB printer(s) into the xPrintServer (optional)
3. Within seconds, it will auto-discover your printers*
4. Start printing!

xPrintServer Office, USB port, 100–240 VAC International power supply with regional adapters, RoHS.

PRINT FEATURES YOUR MOBILE WORKERS NEED

- Print to existing printers — no need to buy new printers
- AirPrint compatible and Google Cloud Print ready
- No apps or software to buy or load
- Print from your iOS and Android phone, tablet, Chromebook and PC
- Administrative and security settings via web interface
- USB printer(s) can be shared over your network**

Part Number: xPS1002FC-02-S

*Each Lantronix xPrintServer supports unlimited AirPrint-compatible and Google Cloud Print Ready devices (including laptops, Chromebooks, phones and tablets). Multiple network printers (up to 10 recommended) and up to 8 USB printers (USB hub required for more than 1 USB printer — USB hub not included).

** USB printer not required for xPrintServer to work. Google account and Internet connection required for printing.

Lantronix xPrintServer Office

SYSTEM SPECIFICATIONS
